To
The Secretary to Government,
Law Department, Bangalore

Sir

Re enhancement of Conveyance allowance from Rs 32/- to s 60/- to the Assistant Engineer, Bangalore City Drainage Division

---

I have the honour to forward herewith for favour of disposal copy of letter No 71 dated 11th September 1942 of the Special Officer, Bangalore City Drainage Division, recommending for the enhancement of Conveyance allowance from Rs 32/- to R 60/- to the Assistant Engineer, Bangalore City Drainage Division under the circumstances explained in the letter

I have the honour to be,
Sir,
Your most obedient servant,

KAJ

Director of Public Health

Letter No 71 dated 11th September 1942 from the Special Officer, Bangalore City Drainage Division, Bangalore, to the Director of Public Health in Mysore, Bangalore

---

I have the honour to state that until recently underground sewers were being laid in the old City proper and and since the beginning of this year, the works are mostly in the extension, as the old city has been almost completed The works which are in progress are the following

1 Drainage to Tata Silk Farm layout, Basavangudi

2 Laying submain No 9 along East Road, Krumbiegal road and Lalbagh road, Basavanagudi

3 Drainage to Fort area

4 Drainage to West End Hotel and High Grounds area

The following new works will be started early and will be started early and willbe under progress during the current year

1 Underground drainage to Sri Narasimharaj Colony

2 Street sewers of submain No 9 and street sewers in Basavanagudi, Gavalli and portions of Visveswarapuram

3 Street sewers of No 8 and street sewers in Visveswarpuram portions of Basavagudi, Bamboo Bazaar, Kalasipalyam and Koracharpalyam

4 The extension of the main ovoid sewer from the Sunkal Farm to Koramangala tank site

It may be seen that the works are scattered all over the City and the Assistant Engineer who is directly in charge of the works will have to visit all these places every day and sometimes twice a day depending on the nature and importance of the work The works have to be inspected by him daily and levels checked frequently and work done during the month have to be check measured by him every month

The construction of the main ovoid sewer is an important work and requires constant attention and supervision by the Assistant Engineer

The work connected with the drainage and lead off channel at Koramangala will also be started at an early date In re

There are several cases pending in the Sub Court filed by the parties against the compensation paid to them by the Land Acquisition Officer for the acquisition of lands in Koramangala village and in all matters of dispute, the Assistant Engineer has to go and verify the measurements of the wells, existing buildings in the Survey numbers and forward his report to the Land Acquisition Officer

There is already a reference from the Land Acquisition Officer for the valuation of about 4 or 5 wells in a few survey numbers in one case and the Assistant Engineer does not get the daily allowance for these additional journeys although the spot is situated about 6 miles outside the municipal limits The fixed conveyance allowance that is being paid to him is quite inadequate and he has to perform at least 25 to 30 miles a day during his daily inspections He has the same jurisdiction as the Municipal Engineer, City Municipality, Bangalore, who is granted a conveyance allowance of Rs 75/- a month The Municipal Engineer, City Municipality, Mysore also gets a conveyance allowance of Rs 75/- The Assistant Engineer, Buildings Range and also the Assistant Engineer of the Headquarters Range, Mysore, are getting conveyance allowance of Rs 60/- per mensem

In view of the facts stated above, I recommend that he may be granted at least Rs 60/- as conveyance allowance to enable him to continue to maintain suitable conveyance for the discharge of Government duties The cost of petrol and lubricating oil and other accessories are increasing in price from day to day and an enhancement is the allowance as considered and the more necessary

I therefore request you to be so good as to obtain sanction of Government for the enhancement of the conveyance allowance from Rs 32/- to Rs 60/- per mensem from the 1st September 1942 The extra cost may be met out of the funds allotted for the Drainage Works during the current year

---
